WELCOME

Dear Family

I welcome your interest in our school and look forward to assisting you throughout the admission process. With more than sixty nationalities among our student body, we have formed a family-oriented school ready to welcome and support new members into our community.

In order to apply for admission, please complete the application forms and return them to me together with previous school records and/or examination results, a birth certificate and a photograph. This pack contains information relevant to the admissions process and the school as a whole.

Whenever possible I welcome the opportunity to personally show you around the school. We will also want to assess your child in order to ensure the correct class or programme will be in place. If you are not in Austria and a prior visit is not possible, we can often complete the application process by mail or email. All secondary applicants must take an online entrance assessment before they may be accepted.

I understand the importance of providing incoming students and their parents with a positive transition experience and am excited to share with you the special qualities that await students at DISV.

If you have any questions, please feel free to contact me.

ADMISSIONS POLICY

OVERVIEW:

The Danube International School Vienna (DISV) is an IB World School whose vision is to be a world leader in international education by *'striving for excellence by engaging minds, exciting learners, acting ethically and showing empathy'*. In order to achieve our vision we offer the International Baccalaureate Organisation Primary Years, Middle Years and Diploma Programmes for students aged from 3 to 18.

We are a non-sectarian, non-denominational school that welcomes students of all nationalities. In our admissions policy, we strive to maintain the diversity of students and encourage the multicultural atmosphere within the school. We welcome potential students who are motivated, internationally minded and academically capable of benefitting from our educational programmes.

CONDITIONS:

If there is a place available a student will generally be accepted, subject to certain common sense conditions. Mainly this is that the student will be able to benefit from being educated at the school without disadvantaging other current students. However, students with disabilities or special care needs that meet the academic criteria for entry, may be admitted subject to an assessment of their needs and any related risks. Unfortunately the school is not wheelchair accessible. Parents whose children do require extra care should contact the school for further information.

The language of instruction is English. Therefore, for entry to Grades 11 and 12, when students study for the International Baccalaureate Diploma, we require a certain level of competence in the English language, since all examination level courses are taught in English. The English Language Development (ELD) coordinator will test students to establish their competence. (This requirement does not apply to younger students.)

Similarly an applicant with a learning support history (for example, dyslexia, ADHD, medication intervention) will meet with the Learning Support Department for assessment in order to establish that DISV can offer a valid educational programme to that student. For Grades 10, 11 and 12 we also need to ensure that students have the academic capability to be successful in the school programme.

ADMISSIONS PRIORITIES:

The priorities for admission if a grade is oversubscribed are as follows.

1. Students with siblings in the school.
2. International students.
3. Students with a parent who is a DISV alumnus/alumna.
4. Students for whom the alternative of an Austrian school is unrealistic (for example, someone having already attended English speaking schools).
5. Students entering in August and committing to remain for at least one academic year.
6. Students with the earliest application date.
7. Students with parents who are members of DISV staff.

ENTRANCE AGE:

A child may be accepted into a grade if he or she is of age before 1st September. Students are assigned to instructional groups primarily on the basis of age. However, factors such as previous records, measured aptitude and achievement, physical and emotional development and other relevant details are also considered. The final decision rests with the Director. A six-week trial period in the grade, to which the student is assigned, is mandatory.

APPLICATION FORMS:

We require all applicants to ensure that Application Form Part A (see Appendix I) is completed and that Application Form Part B (see Appendix II) has been given to their previous school for completion. The non-refundable application fee is payable at this time.

STUDENT RECORDS FROM OTHER SCHOOLS:

The school requires student records in English or translated into English (if the language of the report is not understood by the school administration and/or leadership) from the applicant's previous school before any student is accepted. These records include reports, transcripts, results of standardised tests and any reports by a counselor or psychologist. The school reserves the right to contact the applicant's previous school prior to acceptance.

PHOTO IDs:

These are required for both the students and the parents.

INTERVIEWS:

Whenever possible, the applicant will be interviewed by the Director or a Principal, prior to acceptance. In some cases this may be a requirement.

ADMISSIONS TEST:

The school maintains an enrolment policy, whereby a standardised Cognitive Abilities Test is given to applicants before admittance. However, in some cases, the test may take place for purely placement purposes. This is when the school has sufficient information from previous reports to make an informed decision.

PLACEMENT TESTS:

The Secondary School will utilise a Cognitive Abilities Test to help place students in Mathematics and English. The other languages (German, and French or Spanish) in the school may require additional testing in order that students are placed in the appropriate learning groups.

DECISIONS ON ADMISSION:

After all the admissions procedures have been followed and application fee payments have been made, then the application will be considered. Decisions will be given in writing.

If, in the judgment of the school, an applicant meets all criteria and space is available, acceptance will be unconditional. However, under some circumstances, a conditional acceptance may be offered. The conditions of acceptance will be clearly stated.

An applicant is only guaranteed a place at the school once the enrolment fee payment has been made.

The School reserves the right to deny admission or re-enrolment to any applicant if, in its opinion, there were reasons to believe that admission or re-enrolment would not be in the best interest of the applicant or the school. Please note that a re-enrolment fee applies to students who had previously been in the school.

The school also reserves the right to postpone admission if a class is full or if the additional student will cause an imbalance in the class profile for reasons of gender, learning needs, nationality, language or culture. In these cases, the applicant is placed on a waiting list. The qualified applicants are then accepted subject to the above admission priorities.

LATE ADMISSIONS:

A student may be admitted at any time in the school year if places are available.

CANCELLED ENROLMENT AND WITHDRAWAL:

The parent and/or legal guardian must send notification by registered letter to the Admissions Office. Please be aware that some charges may still apply.

CLASS EQUIVALENTS BY AGE GROUP

It can often be confusing when moving from one educational system to another. One of the confusions can be over the name given to your child's class. The tables below are intended to help you understand the system that we use at Danube International School Vienna and how this compares with some national systems around the world. The age refers to how old your child will be at the beginning of the academic year.

It is important that all payments are made by the due date.

RESPONSIBILITY OF PAYMENT

Parents whose children's fees are paid by agencies or companies are reminded that the contractual agreement regarding fees is with parents in the first instance and that parents are therefore responsible for ensuring that fees are paid by the due dates.

NOTICE OF WITHDRAWAL

(refer to the contract for specific details)

The General Terms and Conditions of Danube International School, Vienna are laid down in the contract that each parent is required to sign.

Specific note should be made of Section 4: Payment Obligations in the event of Premature Termination of Contract and Section 2: Term of School Contract.

The school reserves the right to alter fees should there be a significant change in circumstances. Fees are not refundable in the event of temporary withdrawal by parents, or of suspension or expulsion of the student by the school.

The school understands that families occasionally have difficulties with fee payments and will try to assist in such circumstances.

If you anticipate any problems with payments of fees, please arrange to meet with the Director or Business Office as early as possible so that alternative payment plans could be discussed.
